

Application performance metrics

Date	14 nov 2022
Team ID	PNT2022TMID39755
Project Name	Smart waste management system for metropolitan cities
Maximum Marks	8 Marks

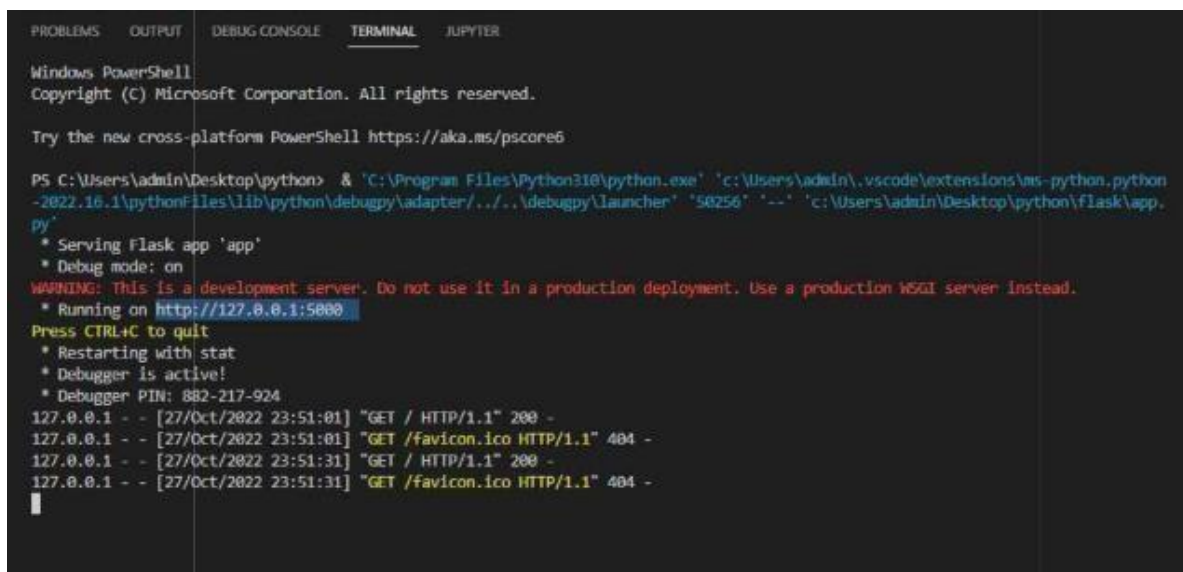

The screenshot shows the Visual Studio Code interface with a Flask application project named 'CREATE FLASK PROJECT'. The Explorer sidebar on the left shows the project structure. The main editor displays the 'app.py' file with the following code:

```
1 from CREATE_FLASK_PROJECT import Flask
2
3 app = Flask(__name__)
4
5 @app.route("/")
6 def home():
7     return '<h1> welcome to IBM</h1>'
8
9 if __name__ == '__main__':
10     app.run(debug=True)
11
```

The TERMINAL panel at the bottom shows the output of the application running, including a warning about the development server and the URL <http://127.0.0.1:5000>.

FLASK

The screenshot shows a Windows PowerShell terminal window with the following output:

```
